COMPANY OVERVIEW

Benta Pharma Industries (BPI) is a leader in the pharmaceutical industry, committed to manufacturing high quality pharmaceutical products and medical devices and consequently improving human health and well being.

BPI has become a front runner in manufacturing enhanced formulations for the treatment of a wide range of central nervous system and cardiovascular diseases, dyslipidemia, diabetes, urology, dermatology, anesthesia, transplant, infection, and hematology. BPI also produces oncology, biotech and sterile products.

BPI also manufactures high -quality sterile medical devices designed for a wide range of hospital uses such as anesthesia, urology, surgery, cardiovascular and IV administration. BPI also produces Intra Ocular lenses.

BPI has earned a number of international, regional, and local certificates. The most important of these are the European Good Manufacturing Practice (GMP) and ISO 9001: 2008. Our medical devices also meet the highest standards of the European Union and have acquired the CE marking.
